"We started working with Creative@Work, in 2014 when the company was in a very turbulent state. The branding of Best Pack at that time was more than 20 years old. Creative@Work helps us with the complete rebranding of the company, and developing sales strategy required to obtain new business, as a result, Best Pack has almost tripled its revenue. We are extremely happy with Creative@Work, and their expertise is very much needed for the continual growth and success of the company. Mimi has an exceptional ability to recognize what the customer needs and works extremely hard to deliver results that will increase value, productivity, and visibility.
